Bronze Age Decorative Grates
for NDS® Products**

NDS® Mini and TDS MAX mini System

TDS offers a variety of decorative grates for the NDS® Mini Channel System and offers an exclusive MAX mini system. The MAX mini comes with a metal edge that gives the system a high-end look that goes great with our decorative Bronze Age grates. Available in stainless steel, galvanized steel, and in five patterns.

Specifications:

- 2.75" x 12" (NDS® Mini Channel)
 - Stainless Steel grate lengths – 12" or 36"
- Two predrilled countersunk holes per grate
- Rated Class A (Pedestrian Traffic)
- ADA Compliant
- Heel Proof

NDS® Spee-D Channel System

The NDS® Spee-D Channel is a 4" system that TDS now offers metal grates for. The Bronze Age grates come in stainless steel and galvanized steel. It is also available in five decorative patterns

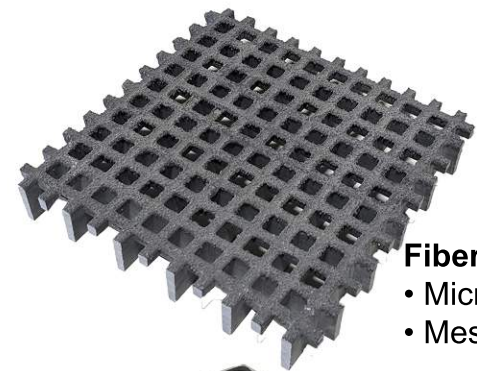

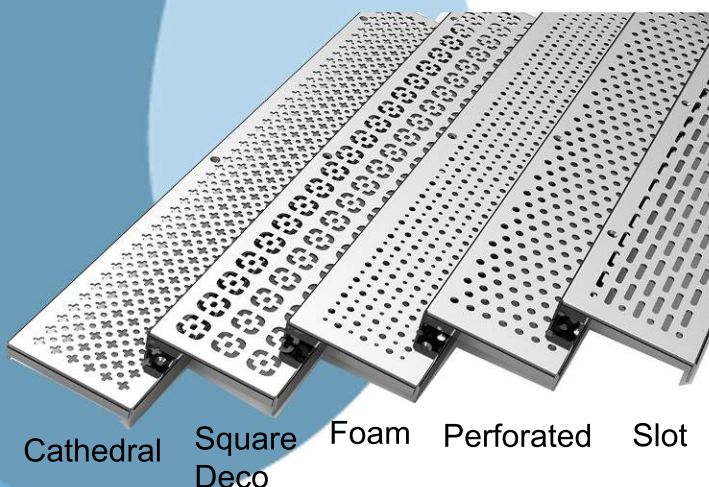

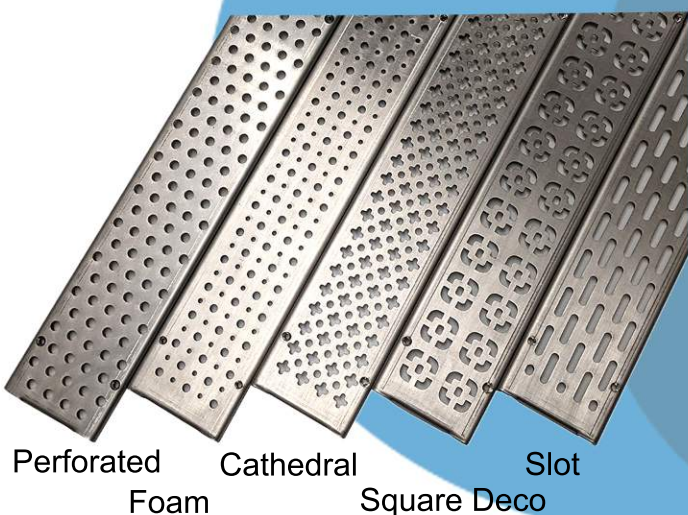

Specifications:

- 4.09" x 23.94" or 47.94" x .75"
- Fits: NDS® Mini Channel
- Countersunk holes for hold down screws
- Rated Class A (Pedestrian Traffic)
- ADA Compliant
- Heel Proof

Catch Basins

NDS® makes a wide range of catch basins for residential and light commercial applications. NDS® basins are ideal for patio drainage, downspout water control or yard and garden drainage.

TDS has fiberglass grates that fit the NDS® Catch Basins. Fiberglass is a strong alternative to plastic and metal grates. Several designs are available for low and high flow rates.
