Reduces standing  
water

# 1200NGB™ Next Generation Catch Basin

The 1200NGB™ Next Generation Catch Basin from NDS is a 12"x 12" catch basin that has unique inlet/outlets with three adjustable positions. The basin can accept pipe at various elevations and sizes using universal outlet adapters to accommodate the job's needs. The inlet/outlet Slides are connected after the inlet/outlet elevation is chosen. The NGB allows for greater flexibility during drainage installations, saving time and money.

## 1245 Offset Universal Outlet: Further Flexibility

Maximize inlet/outlet adjustability in 3/4" increments by using the Offset Universal Outlet, part number 1245. The 1200NGB with Offset Adapter offers 9 outlet height options.
