1200NGB™ NEXT GENERATION CATCH BASIN

new

The 1200NGB™ Next Generation Catch Basin from NDS is a 12"x 12" catch basin that has unique inlet/outlets with three adjustable positions. The basin can accept pipe at various elevations and sizes using universal outlet adapters to accommodate the job's needs. The inlet/outlet Slides are connected after the inlet/outlet elevation is chosen. The NGB allows for greater flexibility during drainage installations, saving time and money.

1200NGB INSTALLATION INSTRUCTIONS

Step 1: Based on pipe position, choose inlet/outlet height of the NGB.

Step 2: Break off the tabs on the Slides to adjust the height of the inlet/outlet.

Step 3: Place Slide into the outside of the NGB from the bottom. Push Slide up gently until it snaps into place.

Step 4: Attach the Universal Outlet to the Slide and connect pipe to finish the installation.

1245 Offset Universal Outlet: Further Flexibility

Maximize inlet/outlet adjustability in 3/4" increments by using the Offset Universal Outlet, part number 1245 (See page 25).
