## **TRENCH DRAINS**

### **One Longitudinal Slotted Grate – Many Uses**

**Our Newest Longitudinal Slotted Grate Outperforms the Competition!**

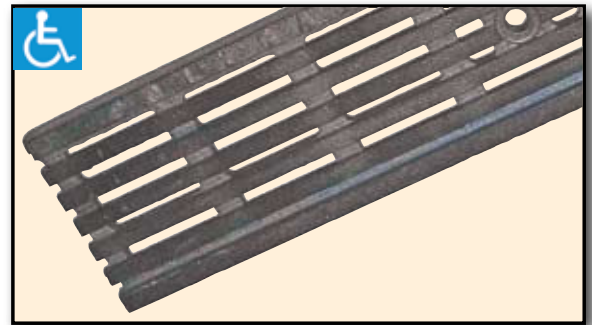

- **ADA Compliant** 
- **High Heel Proof**
- **Exceptional Impact Resistance**
- **Moderate to Heavy Traffic**
- **Easy Maintenance**
- **Attractive Black Finish**
- **For Use With 500/600/700 Series**

## Longitudinal Slotted

Part No. DG0675HD

The Longitudinal Slotted Grate used with the 600 Series channel supports general use and pedestrian traffic applications, as well as heavy vehicular traffic. The grate comes with an attractive black finish.

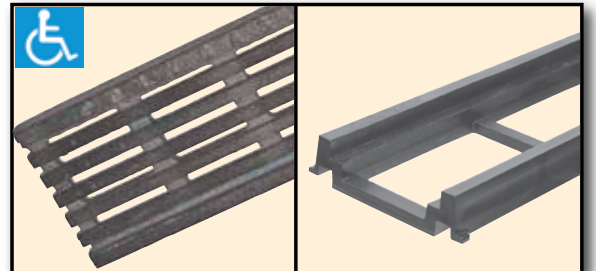

## DURAGUARD® Frame w/ Ductile Longitudinal Grate

Part No. DG0700PE  
w/ DG0675HD

The Longitudinal Slotted Grate used with our DURAGUARD Frame provides increased strength and durability for general to moderately heavy use applications. Used with 500/600 series channels. This product offers outstanding corrosion resistance and low maintenance. Supported applications include moderate frequency forklift to low speed airplane traffic.

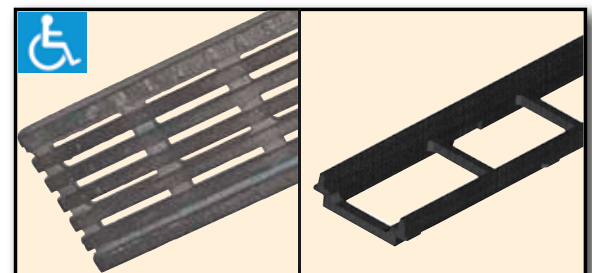

## 700 Series HARDNOSE Iron Frame w/Ductile Iron Longitudinal Grate

Part No. DG0700AA  
w/DG0675HD

Our Longitudinal Slotted Grate combined with the 700 Series Hardnose Iron Frame is recommended in areas exposed to heavy traffic and solid tire vehicles. This product offers exceptional impact resistance. Supported applications include high frequency forklift traffic, low speed heavy vehicles.
