

# POINT DRAINS

## 9" x 9" Catch Basins by NDS

Excellent for light duty applications, including pool areas, landscape or driveway drainage.

NDS 9" x 9" Catch Basins are a complete and flexible drainage assembly. For use in pedestrian and light traffic situations.

Catch basins stop leaves and silt from clogging your pipes by holding the debris in a reservoir. Available with up to 4 outlets. You will need at least 2 outlets if the catch basin is added into an existing pipe run.

Atrium grates in Black or Green

## FEATURES

- Commercial Grade with reinforced shoulders
- Available with 1, 2, 3 or 4 outlets
- Choose from 3"/4" or 6" outlet adapters
- Offset 3"/4" adapter available for alignment issues
- Plastic slotted grates in Black, Grey, Green or Sand
- Optional 6" riser for deeper installation
- Optional Filter: spun-bond polypropylene geotextile fabric

## LOW PROFILE CATCH BASINS

Excellent where vertical clearance is an issue

Add drainage where there's no room, or no need, for a full catch basin. This fast draining system is designed for bottom outlet into your vertical drainage pipe. Accepts the same grates that fit the 9" x 9" catch basin.

Choose 3"/4" (shown) or 6" pipe adapter
