NDS® Mini & Basins
Bronze Age Decorative Grates
for NDS® Products

NDS® Mini and TDS MAX Mini System

TDS offers a variety of decorative grates for the NDS® Mini Channel system and offers an exclusive MAX Mini system. The MAX Mini comes with a metal edge that gives the system a high-end look and goes great with our decorative Bronze Age grates. Available in raw ductile iron or with BoOF (Baked on Oil Finish) and in eight patterns.

Specifications:

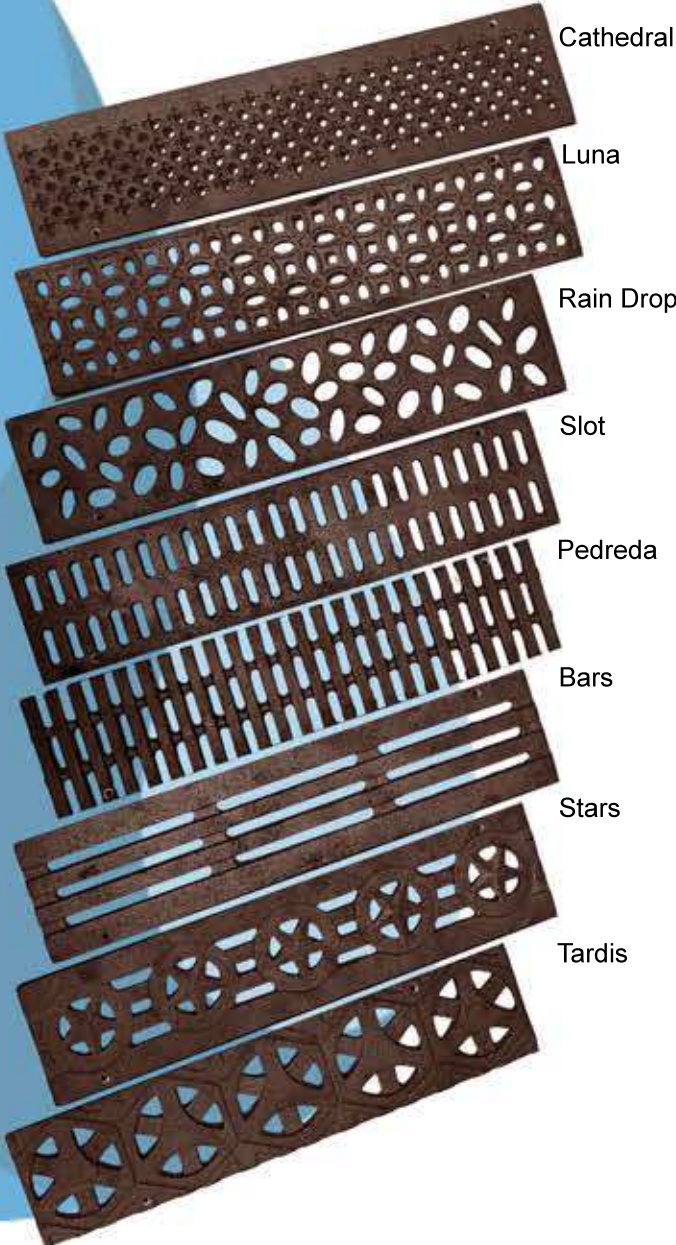

- 2.75" x 12" (NDS® Mini Channel)
- Two predrilled countersunk holes per grate
- Rated Class A (Pedestrian Traffic)
- ADA Compliant
- Heel Friendly (Most are Heel Proof)

- Shown in BoOF
- Also available in Raw Ductile Iron*

Catch Basins

NDS® makes a wide range of catch basins for residential and light commercial applications. NDS® basins are ideal for patio drainage, downspout water control or yard and garden drainage.

TDS has fiberglass grates that fit the NDS® Catch Basins. Fiberglass is a strong alternative to plastic and metal grates. Several designs are available for low and high flow rates.

Fiberglass Grates
• Micro Mesh
• Mesh

NDS Catch Basins

• 1200 Series
• 1800 Series
• 2400 Series

Ductile Iron is stronger and more flexible than cast iron.

* Raw iron will rust within 24 hrs of exposure to moisture and may take several years to settle to a brown patina.
